

Our New Fall Goods

Have been rolling in lively the past two weeks, and we have them ready for your inspection now. Many lines are considerably lower in price than last fall.

The rubber Trust "struck a snag" and rubbers and rubber boots dropped about 20 to 25 per cent.

The Yarn Combination fell to pieces and before they reached an agreement we secured a heavy stock of Fleisch's goods, the best known brand of yarns on the market, at prices ranging about 20 to 25 per cent lower than last season.

We give you the advantage of every cut price and ever special cash discount on all lines of goods.

This year, for the first time in our history, we can sell you men's good quality all-wool "Swiss Combs" underwear for 80c each piece, or \$1.60 per suit. We'll not be "just out" when you come for it either. All wool doesn't mean half cotton with us.

It's by selling standard goods at less than regular prices that the

McKINLEY PRACTICALLY OUT OF ALL DANGER

Prayers of People for His Recovery Have Been Answered in Spite of His Awful Wounds--Skillful Surgery Has Gained a Victory.

EMMA GOLDMAN WAS THE PRIME MOVER

In the Plot for the Assassination of President McKinley.

LEGAL STEPS BEING PREPARED TO EXPEL THEM ALL FROM THE COUNTRY

Comment in the World's Great Centers Makes Extirpation of Anarchy a Foremost Issue — Friendly Feeling in Russia — Senator Billy Mason Hits the Nail on the Head.

New York, Sept. 9.—A special to the Herald from Buffalo says: That there was a conspiracy in which many besides Czolgosz were concerned, and which had the destruction of President McKinley as its purpose, is the firm conviction of all the members of the cabinet and of the Buffalo police. An agent of the United States Secret Service said that the theory is held that Emma Goldman, the anarchist, was the prime mover in this plot which may have contemplated a series of crimes, of which the murder of the President was only the beginning. The object of Emma Goldman's visit to Buffalo has not been learned, but presumably it was in connection with the crime that followed four days later. Her arrest has been ordered.

It can be stated on absolute authority that this woman teacher of anarchy will be expelled if excuse of law can be found for such on act. Moreover, she will not go alone. Holding to the theory that the anarchists conspired against the authority and government of the United States, and planned the assassination of President McKinley, the members of the Cabinet will urge that strenuous efforts be made to eradicate them. Secretary Root is particularly earnest in urging this.

Few believe that Czolgosz was alone in the crime or that he has been anything more than a mere instrument under the control of the real conspirators. That other and important arrests are contemplated in the near future is known to be a fact.

Haunts of anarchists in this city were deserted yesterday, according to the police. Special detectives have been on the watch every where, where members of the band are known to have collected in the past.

Instructions have been issued to the owners of halls not to rent them to anarchists. The same conditions ruled in Paterson, where no big gatherings were held as is customary on Sunday. Mayor Hinchliffe of Paterson has given notice that any saloonkeeper who rents his hall for anarchistic meetings will have his license revoked. Licensees will be refused to applicants known to be merely friendly with followers of the red flag.

Dr. A. M. Cohn of Brooklyn who was chosen to represent the United States at the International Congress of Anarchists in Paris a few years ago, is quoted in the Tribune as saying: "The shooting of President McKinley would not entitle the man to be called an anarchist, nor would the act cause his denunciation by the Brotherhood. Probably Czolgosz thought that McKinley was to blame for various outrages. As for myself, I think the shooting was a rash and unwarranted act."

London, Sept. 9.—Buffalo remains the supreme center of interest for England and Europe as the scene of a crime directed against all principles of government and the enlightened progress of humanity. Anarchy demon-

He Has Saved My Life

State of Oregon, County of Marion, ss: Salem, Ore., May 1, 1900.

To whom these presents shall come greeting:

This is to certify that I have been afflicted with a terrible disease for a number of years, also liver trouble. I desire to publicly state upon oath that Dr. J. F. Cook of Salem, Oregon, has cured me of my disease, and I am now well and happy. I am a native of Oregon and I am a citizen of the State of Oregon. I am a member of the Grand Lodge of the State of Oregon. I am a member of the Grand Lodge of the State of Oregon. I am a member of the Grand Lodge of the State of Oregon.

Do Not Listen to "Cappers"

Who are tried to deceive me and my methods of treatment. If I could not cure, I would be no use to me. It is because I do cure people that I am so persistently misrepresented, but I keep on curing folks just the same, and some of the best people in Oregon stand by me, for which I am thankful.

Send for Circulars containing testimonials from patients cured both in Oregon and in the East. Don't despair because you have been told you have been told you could not be cured. Dr. Cook has cured hundreds of people whose cases have been pronounced hopeless by the "old school" physicians.

The doctor has devoted the best years of his life to the study of disease, and the use and action of Nature's vegetable remedies, until he knows absolutely just what he can do. This gives him confidence.

PRESIDENT'S CONDITION ENTIRELY SATISFACTORY

As Set Forth in the Official Bulletins of the Physicians.

THE DANGEROUS COMPLICATIONS ARE NOW REDUCED TO A MINIMUM

If He Escapes Dangers of Blood Poisoning Tuesday He Will Be Practically Out of all Danger — Wounds Healing up Perfectly and the Utmost Confidence Felt by Physicians.

First Monday Morning Bulletin.

BUFFALO, Sept. 9.—6 a. m.—President passed a somewhat restless night, sleeping fairly. General condition unchanged. Pulse 120, temperature 101, respiration 28.

(Signed)
P. M. RIXEY,
M. D. MANN,
G. R. CORTEVOU,
Sec'y.

Unfavorable Possibilities are Less Likely to Occur.

BUFFALO, Sept. 9.—Following bulletin was issued by the physicians at 9:20 a. m. The President's condition is becoming more and more satisfactory. Untoward incidents are less likely. Pulse 122, temperature 100.8, respiration 28.

Member of Cabinet Declares He Will Get Well.

BUFFALO, Sept. 9.—Secretary of Agriculture Wilson came out of the house "Dr. Park says President will get well," says the Secretary. "The doctors believe it. The symptoms are all favorable. The situation is entirely satisfactory, said Dr. Park." There are no symptoms to cause alarm. CALES.

Complications are Not Likely to Occur.

BUFFALO, N. Y., Sept. 9.—Dr. McBurney is quoted this morning saying the President is in an entirely satisfactory condition. Complications today are decidedly less likely to occur than yesterday.

Visited by His Wife. He Moves in Bed Without Pain.

BUFFALO, Sept. 9.—Mrs. McKinley was admitted to the sick room this morning. She displayed the same fortitude which has characterized her as well as the President since the tragic event occurred. Mr. McKinley, who had been lying a long time in one position, changed his position by his own effort without difficulty and without pain.

Roosevelt is Confident of the President's Recovery.

BUFFALO, Sept. 9.—"I may say I have even deeper information than bulletins and I again say with great confidence the President will recover," said Vice-President Roosevelt in an interview with the Associated Press correspondent.

states its own utter helplessness when the only effect of its irresponsible vagaries is to draw the governments of christendom together for their own protection and to convert the victim of its murderous impulses into a world's hero and martyr.

America, envied for its unparalleled prosperity, and menaced with anti-tariff leagues on the continent, is suddenly overwhelmed with a spontaneous outburst of European sympathy and good feeling, because a President identified with protection and the Monroe doctrine is shot down at a democratic function.

Ironical as this result may appear to ill-balanced anarchists, it is matched by a strange sequence of the Buffalo outrage.

Monarchy, instead of being weakened by the attack on the head of the great Republic is strengthened. The number of assassinations of monarchs and presidents is reckoned and compared, and kings are congratulated by European journals upon being exposed to fewer risks than democratic rulers. The Czar may safely meet the German Emperor and Edward VII, but extraordinary precautions must be taken to protect him in France.

This is the reasoning employed by the leading writers, and the conclusion may be inferred that monarchy is a safer form of government than a democratic republic, since Kings and Emperors are protected by etiquette and are not easily approached, whereas Presidents must remain in daily touch with the people and be liable to greater danger of assassination. The results hardly come within the range of the Socialists' propaganda.

The Times this morning referring editorially to the continental demands for the adoption of anti-anarchist measures, says: If such measures can be devised and enforced without doing more harm than good, both the British and American people will gladly adopt them, but neither nation is likely to be hurried at the bidding of foreign powers into any action which might involve danger to the common principles they most dearly cherish."

St. Petersburg, Sept. 9.—The Journal de St. Petersburg says: "It is earnestly to be hoped that civilized countries will realize that all that has been done so far has hitherto missed the mark and that redoubled energy is needed in the struggle against anarchists."

The Journal de St. Petersburg, which is edited by the Foreign Office, says: "Everywhere will be felt profound indignation in presence of the odious act whose author is affiliated with the redoubtable international band called anarchists."

The Boers Gazette, with perhaps the largest circulation in Russia, brands anarchism as social inanity and demands more energetic action against the ruthless bands which victimize the great God's elect and chosen rulers since ordinary police precautions and internal supervision are insufficient."

Chicago, Sept. 9.—Senator William E. Mason is speaking of the enactment of laws to prevent the gathering of anarchists, said: "The man that attempted to kill President McKinley is guilty of treason. A law should be enacted by the government that would prohibit the teaching of treason and deal with those guilty of the crime."

"If we caught a man teaching a youth to steal we would punish him. There is a class of people that teach that it is right to kill a President. This not only is murder but treason. The people who teach it are accessories to the murder before and after the fact and are guilty of treason when they teach it."
